

P.E. REVIEW COURSE COMMITTEE

A joint committee of the Engineering Society of Buffalo, Erie-Niagara Chapter of the New York State Society of Professional Engineers, and University at Buffalo School of Engineering and Applied Sciences

November 2021

Dear Sir/Madam:

The P.E. Review Course Committee will again offer a review course for civil engineers planning to take the Principles and Practice of Engineering Exam. The course begins on January 13, 2022 and continues through April 2022. Enclosed please find a poster announcing the review course. We ask that you display the poster at your office and announce the course to your engineering staff. A registration form is also enclosed.

The course consists of 10 lectures, focusing on the five engineering disciplines covered by the exam. The sessions will be taught by experienced, licensed professional engineers. Each session is three hours, beginning at 7 p.m. and will be held in a classroom to be determined on the UB North Campus. The course is sponsored by the Erie-Niagara Chapter of the New York State Society of Professional Engineers, the Engineering Society of Buffalo and the University at Buffalo, School of Engineering and Applied Sciences.

All participants will be required to comply with UB's COVID health and safety protocols. General information about visiting campus can be found at:

<https://www.buffalo.edu/coronavirus/health-and-safety/health-safety-guidelines.html>.

For additional information, please call me or email me (see the enclosed poster). Thank you for your help in promoting this important review course to your staff.

Sincerely,

Donald R. McMahon, P.E.

P.E. Review Course Committee
